

A cross-section diagram of a retaining wall. The wall has a total height of 6'-0" and a top width of 3'-10". The waterline is 6" below the top of the wall. The wall's profile is defined by a vertical back face, a sloped face, a horizontal base, and a sloped toe. The dimensions are as follows:

- Back face height: 6'-0"
- Back face width: 2'-0"
- Horizontal distance from back face to toe: 7'-0"
- Horizontal distance from toe to waterline: 7'-0"
- Horizontal distance from waterline to front face: 18'-1"
- Total horizontal width: 34'-1"
- Waterline: 6" below top of wall
